So..

where do we put it!

Limited Only By Your Imagination!

Ideal Locations for Motel and Accommodation Houses.

In a Wardrobe; (pantry, entertainment unit, display case, bookshelves, built in module etc) there is a variety of installation positions available to suit the individual.
- ◆ Under Shelves
- ◆ On Top of Shelves
- ◆ Fully Encased in a Small Cavity *on edge*
- ◆ Exposed *on edge*
- ◆ In a Drawer Unit
HIDE-AWAY can be installed at any angle, even up-side down, without spilling or mixing the contents.

- ◆ Under Low Shelves

Wardrobe Installation

It is best to fit the Docking Station a minimum ,100mm back from front face of Drawer unit, so that it *can't* be seen easily when Drawer is opened.

Simply cut section out of the back of drawer equivalent to the end dimensions of your Hide-Away.
70mm x 199mm

100mm

Not to Scale

This area is ideal for cutlery module, allowing plenty of room for Hide-Aways' passage above.
